REMINDERS

PARENT TEACHER CONFERENCES

Thank you so much for coming! We will put your child ILP form in your next Friday Folder.☺ These forms outline our observations and goals for your child. As a reminder the first semester meeting is a goal setting meeting and when we meet in the spring we will talk about your child's progress.

NO SCHOOL

November 11: Veteran's Day
November 25~29: Thanksgiving Break

THANKSGIVING FEAST

Wednesday, November 20: We will be celebrating Thanksgiving at school. This event is only for our students. We will be eating in our family groups (mixed grades) and will be discussing something that we are grateful for.

WHAT'S BEEN HAPPENING....

Our first years are working on nouns (introduced to the noun symbol), static subtraction operations, time (hour), and bead chains (skip counting). Our second years are working on dynamic subtraction operations, multiplication facts, division tickets, money, vocabulary studies, and adjectives. Our third years are working on dynamic operations, multiplication/division facts, adjectives, and geometry.

In cultural all of our students made their own sun clock and studied how they can tell time by using the sun. They can use these at home by "setting them" with a watch or using a compass to point North.

This week we are listening to wonderful Historical Halloween presentations. The students feel very prepared and successful while presenting. We thank you for your hard work preparing them.

*Thank You,
Jennifer & Sara*
